EDUCATION

Bachelor's Degree, Faculty of Information Technologies, 2017-2022.

Metropolitan University, Belgrade

Information Technology Electrical Technician 2009-2013.

Electrotechnical School Nikola Tesla, Niš

EMPLOYMENT

Quality Assurance Engineer

Jun 2022 - Present

Vega It, Niš

- Currently working as a manual tester on a large-scale insurance-related project, where I prepare and execute test cases based on requirements derived from user stories, write SQL queries for validation, create and manage bug reports, and perform regression and end-to-end testing. I also contribute to automation using Playwright for repetitive test scenarios. With strong knowledge of the software testing lifecycle gained through daily hands-on experience, I am skilled in identifying and documenting bugs, ensuring high accuracy and attention to detail crucial in the insurance domain. I regularly use various tools for writing, executing, and tracking tests.
- Three years of client-facing experience, including regular meetings, problem-solving, and presenting completed work to ensure alignment with client needs.
- Worked with international clients from the mobility, financial services, and insurance industries, supporting them in streamlining business processes and improving operational efficiency.
- Learned and worked on internal projects as a manual and automation tester using Playwright
- In addition to understanding the basic principles of the HTTP protocol, I have hands-on experience working with HTTP clients like Postman to interact with APIs

INTERNSHIPS

Quality Assurance tester

November 2021 – February 2022.

Information System of Metropolitan University, Belgrade

Learned about manual and automated testing and used the Cypress framework on an internal project

Technical expertise

Proficient in JavaScript, Manual testing, Cypress, Playwright, Mendix, CSS, Jira, Postman, GitHub, Angular, Agile software development methodology

QUALITIES

I am a creative thinker who confidently proposes and communicates ideas both independently and within a team. I have strong analytical and problem-solving skills, am a good communicator, reliable, and able to work well autonomously or in a team
