EDUCATION

Bachelor's Degree, Faculty of Information Technologies,	2017-2022.
Metropolitan University, Niš	
Information technology electrical technician	2009-2013.
Electrotechnical School Nikola Tesla, Niš	

EMPLOYMENT

Software Engineer — Jun 2022-Present

VegaIt, Niš

- Within the insurance house project, I am responsible for developing and executing test cases, tracking and documenting errors and issues, and communicating them to the team for corrections
- I have hands-on experience in creating and manually executing test plans and test cases for diverse testing methodologies, such as Smoke, Functional, Acceptance, and Regression, to ensure that deliverables align with specified requirements.
- I am skilled in managing the complete bug life cycle using issue-tracking tools like Jira, ensuring thorough documentation and timely resolution. My background includes collaborative work within Agile/SCRUM teams, and I possess a systematic approach and keen attention to detail.
- During my role as a Mendix developer, I primarily focused on enhancing an application for official travel purposes, with a major emphasis on creating Mendix widgets following the documentation and efficiently displaying data using an API. Additionally, I contributed to the project by designing and implementing custom widgets in CSS.

Software engineer — December 2022-May 2022.

Freelancer

- The application was developed for university purposes, with the frontend built-in JavaScript and the backend using Spring Boot.

INTERNSHIPS

Quality Assurance tester — September 2021–December 2022.

- During my internship, I began to learn manual and I started learning automated testing, where I used the Cypress tool.

Technical expertise

Proficient in Manual testing, Mendix, CSS, JavaScript, Jira, Postman, and GitHub
Familiar with Automation testing using Cypress, Java, Spring Boot
